

The Proactive Collection

The School Safety Toolbox

The School Wellness Assessment

An online assessment identifying students who are at-risk for anger, depression, drugs/alcohol use and additional mental health related issues. A complete report is provided to the school admin. within 3-4 weeks of the screening.

The School Helpline

Schools can subscribe to this anonymous reporting system allowing students, staff, parents and community members to call, text, SMS message and email when there is a school related issue. Crisis workers are available 24/7-365 days/year.

School Safety Environmental Assessment

This assessment will allow School Administrators to receive a thorough report looking at how efficient and effective their school security is when compared to the three-point environmental review recommended by the Federal Commission on School Safety. This is an on-site school environment screening.

Elementary SEL VIDEOS & Activities

Promote a positive and violence-free elementary school by offering short 4-8 minute SEL videos that teach students the 5 core concepts before school, during class, at lunch, in the counseling office. or as a means to addressing challenging behavior.

School Violence Prevention Training

A full day of school violence prevention training beginning with two live performances from the WSA student performers. An expert speaker talks about a personal experience with violence. Many student audience members receive t-shirts, wristbands and stuffies. A digital handbook is discussed in the afternoon in classrooms.

Newsletters, Morning Scripts, Mental Health Reminders

Work smarter; not harder with these professionally created School Safety Newsletters for students and parents, Morning Announcement Scripts for Principals and Mental Health Reminders for staff. Your life just got easier and you implemented a school safety plan.
